

St Alban's Catholic Academy: Sport Premium Sustainability Statement

Sports Premium Sustainability:

At St Alban's Catholic Academy we aim to use this money to create a sustainable Physical education curriculum for all children and to provide a wide and varied menu of sporting opportunities.,

Our funding is spent in a variety of ways:

- Professional development of staff and as a result this will enhance the quality of teaching for all children.
- Specialist P.E. teachers to work and teach alongside classroom teachers. As a result, the quality of children's learning and development should be improved, and the teaching of P.E. sustained.
- St Alban's Catholic Academy continues to buy in to the Harlow Sports Partnership which provides training and support for subject leaders and regular sporting activities for pupils. This will support future leadership.
- The advancement of our Gold Kite Mark which will motivate all staff to achieve. This in turn will support the learning for our children.
- We have invested in quality PE equipment which will support high quality PE teaching over time.
- Support the afterschool clubs which may inspire children to adopt future sports, including investment in Karate, a specialist discipline to support all children.
- Investment in competitive sports, giving all children the experience of tournaments.
