

# Knowledge Organiser Curriculum Spring Term / Topic: A River's Tale

Curriculum Subjects Covered: English, Mathematics, RE, PSHE, History, Geography, Science, PE

Caritas Theme: *For Year 5 we are understanding what it means to be an active part of a wider community.*

## The stages of the water cycle

- Step 1: Evaporation.
- Step 2: Condensation.
- Step 3: Sublimation.
- Step 4: Precipitation.
- Step 5: Transpiration
- Step 6: Runoff.
- Step 7: Infiltration.

## New English Learning

This term we will be inspired by our beautifully illustrated book with a book 'Once upon a Rain Drop' by James Carter and write narrative poetry.

We will also write stories from another culture focussed on the Amazon Basin using Journey to the River Sea by Eva Ibbotson and non-chronological reports.

- Water flows from rivers to the ocean and sea
- Lots of animals live in rivers.
- Rivers can flood if there is a lot of rainfall.
- The start of a river is called the source.
- The end of a river is called a mouth.
- The longest river in the world is the River Nile.

## Vocabulary

<b>Water cycle</b>	The cycle of processes by which water circulates between the earth's oceans.
<b>Evaporation</b>	the process of turning from liquid into vapour.
<b>Condensation</b>	the conversion of a vapour or gas to a liquid.
<b>Source</b>	a place, person, or thing from which something originates or can be obtained
<b>Mouth</b>	The meaning of <b>MOUTH OF THE RIVER</b> is the place where the river enters the ocean
